Homes for All in Itasca County

MHP’s County Profiles provide county and state data on housing affordability as well as important housing trends impacting children, seniors, and adults of all ages.

RENTS HIGH, EARNINGS LIMITED

In order to afford rent and utilities for a safe, modest two-bedroom apartment at the fair market monthly rent of $655, Itasca County workers would need to earn $12.60 per hour, 40 hours per week, all year long. The typical renter in the county, however, earns the equivalent of $7.76. At the minimum wage of $7.25 per hour, a worker must work 1.7 full time jobs to afford this rent.\(^1\)

In Itasca County, about 1,409 owner and 828 renter households pay at least half of their income for housing—a level considered severely unaffordable.\(^1\)

When housing is unaffordable, families are forced to choose between paying for housing and other needs, such as food or medicine.

CONSTRAINED RENTAL OPTIONS

Growing demand plus a limited supply of rental housing is leading to higher rents and limited choice in many areas. The foreclosure crisis has turned scores of former homeowners into renters, and much of the rental stock is aging and not matched well to the needs of renters. Meanwhile, construction of multi-family properties statewide reached a 50-year low in 2006-2010.\(^5\)

Where a shortage of rental homes exists, the burden is heaviest for the lowest-income renters. In Itasca County, for every 100 extremely low-income renters there are 48 units that are affordable and available.\(^6\)

When housing is unaffordable, families are forced to choose between paying for housing and other needs, such as food or medicine.

In most Minnesota counties, renter incomes have fallen. According to the most recent data available, real renter incomes have fallen by 23% in Itasca County since 1999. The median income for renter households is now $20,278.\(^4\)

In 2010 the cost of housing consumed more than half of income for almost 1 in 7 Minnesota households.

In 2000, only 1 in 12 households experienced this level of cost burden.\(^8\)

**OWNER COSTS, EQUITY, AND FORECLOSURE**

- In Itasca County, the median home sales price (for non-foreclosures) in 2011 was $136,000. This is a decrease of 8% since 2006, after adjusting for inflation.\(^9\)
- From 2005-2011 in Itasca County there were 608 foreclosures. Of these, 121 occurred in 2011.\(^10\)
- A drop in home prices as a result of the foreclosure crisis and the Great Recession has left 18% of Minnesota mortgage holders owing more on their home than it is worth.\(^11\)
- About 5% of primary mortgages in Minnesota were delinquent by 60 days or more in early 2012. As a comparison, from 1979 to 2004, this delinquency rate averaged 1.7%.\(^12\)

**Unemployment, Children, and Poverty**

- In 2010, 12.2% of people in Itasca County were living in poverty. Children face a poverty rate of 19.2%.\(^13\)
- The average unemployment rate in Itasca County was 7.4% in June, 2012, not including those who have quit actively looking for work.\(^14\)
- Of the available jobs in Itasca County and counties nearby, 43% pay less than the wage required to afford basic needs.\(^20\)
- In Itasca County and counties nearby, there are about 3.5 job seekers for each vacant job.\(^21\)

**Homelessness in Minnesota**

- On a single day in 2009, 214 people were known to be homeless in the Northeast Region, including 98 children and youth through age 21.\(^13\)
- About half of the people experiencing homelessness in Minnesota are 21 or under.\(^14\)
- An estimated 13,100 Minnesotans were homeless on a given night in 2009, the most recent year for which there is statewide data.\(^15\)
- The number of homeless Minnesotans increased by 25% from 2006 to 2009, and rose further in recent years.\(^16\)
