For 33% of owners and 45% of renters in Pine County, housing consumes 30% or more of their household income. This can mean inadequate spending on other basic needs like food and medicine. Saving for education or emergencies often becomes impossible, especially for lowest-income households.

RENTER INCOMES LAG BEHIND RENTS
In Pine County, 19% of households are renters. In most Minnesota counties, renter incomes have fallen as rents have risen. According to recent data for Pine County, real renter incomes have fallen by 5%, while rents have risen by 20% since 2000.

There are now 61 units affordable and available for every 100 extremely low-income renters in Pine County. The county ranks 25 out of the state’s 87 counties for the most units affordable and available to this income group.

RENTAL CHOICE KEY, BUT OPTIONS LIMITED
For many, renting makes sense. Young people starting out are often saddled with student debt. Seniors may not be able to afford or manage owning a home. Many do not have the savings or credit to qualify for mortgages. Workers relocating for jobs also need rental housing.

A safe, modest two-bedroom apartment costs $722 per month in Pine County. At the median renter household income of $28,880, a family could affordably spend $655 per month on rent. By definition, half of the county’s renters earn less than this median, and would need less expensive housing.

At $8.00 per hour, the state minimum wage for 2014, an earner must work 69 hours per week to afford the $722 rent for a modest two-bedroom apartment in this county.
Workers fill essential roles, but a job does not guarantee an affordable place to live.

The median earnings for many jobs do not cover actual housing costs, the chart below shows.\(^\text{11}\)

![Housing Affordability by Occupation, Pine County](chart)

For vacant positions in Pine County and counties nearby, the median hourly wage is $11.89 for full time jobs, which corresponds to $24,731 annually at 40 hours per week. Vacant part time jobs only earn $10.36 per hour.\(^\text{12}\)

**Owning a home.**

81% of households in Pine County own a home. For white, non-Hispanic households, the county’s ownership rate is 82%, compared to 53% for households of color. **As a state, Minnesota has the nation’s largest racial homeownership gap.**\(^\text{13}\)

- The median sales price for non-foreclosed homes is $113,700 in Pine County, which is a real decrease of 31% since 2006.\(^\text{14}\)
- From 2005-2013, there were 1,457 foreclosures in the county.\(^\text{15}\)
- Statewide, 3.1% of primary mortgages were delinquent by 60+ days in early 2014, compared to an average of 1.7% from 1979 to 2004, before the foreclosure crisis.\(^\text{16}\)

**In Pine County 14% of owner and 16% of renter households pay half or more of their income for housing, a situation known as “severe cost burden.”**\(^\text{17}\)

**Unaffordable housing and homelessness affect people of all ages in Minnesota.**

An estimated 14,000 Minnesotans were homeless on a given night in 2012. Homelessness increased 32% statewide from 2006 to 2012.\(^\text{18}\)

On that 2012 night, 605 people were known to be homeless in the Central Region including:

- 171 children with their parents.
- 83 youth through age 21 living on their own.
- 39 seniors aged 55+.\(^\text{19}\)

**Without stable housing, children face higher barriers to success in schools.**

About half of the people experiencing homelessness in Minnesota are 21 or under.\(^\text{20}\)

Homelessness can cause delays in growth and development, as well as problems in school. Housing subsidies have been linked with better nutrition and school success for poor children.

In 2012, 21% of children in Pine County were living in poverty, up from 14% in 2002.\(^\text{21}\)

**Housing needs among seniors are growing.**

The number of households headed by seniors aged 65+ in Pine County grew from 1,377 in 2000 to 3,097 in 2008.\(^\text{12}\) Currently, 449 are renter households. Statewide, 3 in 5 senior renters pay more than 30% of their income for housing.\(^\text{23}\)

Seniors were also one of the fastest growing segments of the state’s homeless population between 2009 and 2012.\(^\text{24}\)

**Targeted investment can end homelessness.**

Ending homelessness is possible with strategic public investment. For example, targeting housing and services to homeless veterans led to a 13% decline in homelessness for this group from 2009 to 2012 even as homelessness rose overall.\(^\text{25}\)
