Many Minnesotans cannot afford a home.

Rent and home values continue to rise while incomes decline or remain stagnant, putting a modest apartment or homeownership out of reach.

Many Minnesotans are experiencing cost burden.

When housing costs require more than 30 percent of a household's income each month, families are more likely to have insufficient resources to pay for basic needs, like food and medicine. Yet more than 572,000 Minnesota households are cost burdened.

 SEVERELY cost burdened owner households **751**

In-demand jobs don't cover housing costs.

The median earnings for most of the top in-demand and high-growth jobs throughout Minnesota do not cover housing costs for a two-bedroom apartment or the mortgage for a median-value home.

WAGES & HOUSING AFFORDABILITY IN CARLTON COUNTY

Hours per week minimum wage employee must work to afford 1-bedroom apartment **53**

% of employees who live in county of workplace **60%**

New job growth in the Northeast Planning Area by 2026 **1,725**

Our housing stock won't meet the needs of a growing Minnesota.

Housing production is not keeping up with demand, undermining the economic development and prosperity of many communities, and worsening housing disparities for seniors and households of color.
