Many Minnesotans cannot afford a home.

Rent and home values continue to rise while incomes decline or remain stagnant, putting a modest apartment or homeownership out of reach.

Many Minnesotans are experiencing cost burden.

When housing costs require more than 30 percent of a household's income each month, families are more likely to have insufficient resources to pay for basic needs, like food and medicine. Yet more than 572,000 Minnesota households are cost burdened.

In-demand jobs don't cover housing costs.

The median earnings for most of the top in-demand and high-growth jobs throughout Minnesota do not cover housing costs for a two-bedroom apartment or the mortgage for a median-value home.

Our housing stock won't meet the needs of a growing Minnesota.

Housing production is not keeping up with demand, undermining the economic development and prosperity of many communities, and worsening housing disparities for seniors and households of color.
