

2021 Congressional District Profile

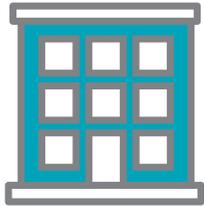

District Six

256,280 households

Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Severe Cost Burden	10,275	12,085

Disparities in cost-burden persist throughout Minnesota

CD6 WAGES: Housing remains a challenge even for Minnesotans who are fully employed. The median earnings for most of the top in-demand and high-growth jobs in CD6 do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median price home.

In Minnesota, there is critical need for housing particularly for extremely low-income renters, or renter households that earn at or under 30% of area median income (AMI).

Racial disparities in Minnesota are among the worst in the nation. While 77 percent of all white households own their home, only 44 percent of BIPOC households do.
