MIRRroring the state trend, the cost of rent continues to rise while renter income is declining, making it increasingly challenging for renters to make ends meet.

Income for families who own their homes is not rising nearly as quickly as home values — and homeownership among young families is declining.

Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Countywide, 6,791 households pay more than 30 percent of their income toward housing costs, putting them at risk of being unable to afford basic needs like groceries, clothes, prescriptions and transportation. This includes 53% of seniors who rent and more than 71% of owners and 87% of renters who earn less than $20,000 per year.

  - Total # cost burdened SENIOR households: 1,413
**WAGES:** Housing remains a challenge even for workers who are fully employed. The median earnings for most of the top in-demand and high-growth jobs do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median-value home.

**HOMELESSNESS:** Across the state, homelessness has declined since 2012, but too many families, seniors and children in the Southern region are still suffering the devastating consequences of having no place to call home.
