Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Mirroring the state trend, the cost of rent is rising far more quickly than renter income, making it increasingly challenging for renters to make ends meet.

Income for families who own their homes is not rising nearly as quickly as home values, and ownership for young households has declined since 2000.

Countywide, 752 households pay more than 30 percent of their income toward housing costs, putting them at risk of being unable to afford basic needs like groceries, clothes, prescriptions and transportation. This includes 51% of seniors who rent and more than 73% of owners and 72% of renters who earn less than $20,000 per year.

2017 County Housing Profile
Clearwater County
3,539 households | Northwest region

**WAGES:** Housing remains a challenge even for workers who are fully employed. The median earnings for most of the top in-demand and high-growth jobs do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median-value home.

**HOMELESSNESS:** Across the state, homelessness has declined since 2012, but too many families, seniors and children in the Northwest region are still suffering the devastating consequences of having no place to call home.

**HOUSING STOCK:** While a significant portion of the rental and owner-occupied housing is aging (built before 1960), new construction is not keeping up with demand. Of particular concern is the gap between the number of available units for extremely low income households – and the number of people who need them.

**Wages & housing affordability for top in-demand jobs in Clearwater County**

- **Salary needed to afford median-value home:** $34,860
- **Salary needed to afford two-bedroom apartment:** $23,688
- **Annual median income:**
