**2017 County Housing Profile**

**Cottonwood County**

4,855 households  |  Southwest region

Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Mirroring the state trend, the cost of rent continues to rise, while, on average, income is declining, making it increasingly challenging for renters to make ends meet.

Income for families who own their homes is not rising nearly as quickly as home values, with home values increasing at twice the pace of owner income.

WAGES: Housing remains a challenge even for workers who are fully employed. The median earnings for most of the top in-demand and high-growth jobs do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median-value home.
