

2017 County Housing Profile

Hennepin County

484,868 households | Twin Cities region

Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Mirroring the state trend, the cost of rent continues to rise, while, on average, income is declining, making it increasingly challenging for renters to make ends meet.

Income for families who own their homes is also on the decline while home values are rising, and ownership for young households has declined significantly since 2000.

WAGES: Housing remains a challenge even for workers who are fully employed. The median earnings for most of the top in-demand and high-growth jobs do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median-value home.
