Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Mirroring the state trend, the cost of rent continues to rise, while, on average, income is declining, making it increasingly challenging for renters to make ends meet. Income for families who own their homes is not rising nearly as quickly as home values, with median home value increase at twice the pace of owner income.

Countywide, 651 households pay more than 30 percent of their income toward housing costs, putting them at risk of being unable to afford basic needs like groceries, clothes, prescriptions and transportation. This includes 35% of seniors who rent and more than 59% of owners and 77% of renters who earn less than $20,000 per year.

2017 County Housing Profile
Swift County
4,230 households | Southwest region

Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Renters

| Percentage of households paying more than 30% of their income toward housing |
|---------------------------------|-----------------|-----------------|
| Less than $20,000               | 77%             | Renters         |
| $20,000-$34,999                 | 40%             | Owners          |
| $35,000-$49,999                 | 18%             |                 |
| More than $50,000               | 5%              |                 |
| Seniors                         | 3%              |                 |

Total number of cost burdened households: 651

Total # cost burdened RENTER households: 326

Total # cost burdened OWNER households: 325

Total # cost burdened SENIOR households: 314
WAGES: Housing remains a challenge even for workers who are fully employed. The median earnings for most of the top in-demand and high-growth jobs do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median-value home.

HOMEGE الأمريكيةية: While a significant portion of the rental and owner-occupied housing is aging (built before 1960), new construction is not keeping up with demand. Of particular concern is the gap between the number of available units for extremely low income households – and the number of people who need them.

Wages & housing affordability for top in-demand jobs in Swift County

County POPULATION growth by 2035: 215

- % single family homes built before 1960: 60%
- Single-family units permitted in 2015: 6
- % rental units built before 1960: 34%
- Multi-family units permitted in 2015: 0

Number of extremely low income (ELI)* households: 315
Available units affordable to ELI households: 185

* earning less than 30% of area median income

SENIORS: The number of seniors will rise dramatically over the next two decades, growing by more than 90% across the state – and making senior housing a critical need.

Total senior households by 2035: 3,021
Growth in number of individual seniors by 2035: 42%
Seniors % of overall population by 2035: 31%

# of homeless on given night in 2015: 179
% change in homelessness 2012-2015: -10%
Number of homeless CHILDREN: 88
homeless SENIORS: 5

HOMELESSNESS: Across the state, homelessness has declined since 2012, but too many families, seniors and children in the Southwest region are still suffering the devastating consequences of having no place to call home.
